DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Schaefer on December 15, 2006.

The application has been amended as follows:

Cancel claim 11.

Allowable Subject Matter

Claims 1 – 10 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 1, while the prior art discloses recording any number of events corresponding to a relative time, the prior art does not disclose determining whether all of the events of a group are completely recorded and, if not, repeating the recording (step B), and also determining whether all events are recorded and, if not, recording the event to a relative

time field. In other words, the prior art does not disclose two steps of determining whether events are recorded; 1) for the events in each relative time, and 2) for all events and having separate recording steps (steps A and B) for each determination. For example, see the "NO" decisions in steps S13 and S14 in Applicant's figure 4.

Regarding claim 6, the prior art does not disclose determining whether all events of a group within a time field are decoded completely and, if not, repeating the decoding process (step D) nor of obtaining a relative time's length recorded in the time field based on the time field's length (step C). For example, see the "NO" decision in step S27 and the sequence of steps S22 and S24 in Applicant's figure 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
